

# How To Prepare Your Vehicle For Shipping

## Checklist

- Disable the vehicle alarm if possible
- Check the tire pressures and battery condition
- Deactivate the vehicle's electronic toll pass (if applicable)
- Remove exterior attachments and accessories like antennas and bike racks
- Make sure there are no valuables (money, jewelry, electronics, etc.) left inside
- Check and refill vital fluids like the engine oil, brake fluid, and transmission fluid
- Fill the gas tank at least a quarter full
- Make sure the parking/emergency brake is working

## Don't forget about insurance

- Request proof of insurance from the transport company
- Determine the deductible
- Review the type of damages that are covered by the policy
